French Immersion Program

Did you know?

French Immersion was created in the 1960's by a group of Anglophone parents in Montreal. They were worried that their children were less competitive in the job market since Francophone students were completely bilingual.

French Immersion

- You don't need to speak French to send your children to French Immersion!
- Your child will learn French in class through games, songs and other activities.
- French is Mme Bouchard's first language and she is very excited to start that journey with your children!
